

Lum Bears: Growing and Learning at the Crossroads in Alameda

Lum, closing the achievement gap

Lum Theory of Action, 2009 - 2010

- If we provide consistently articulated, standards-based instruction in reading, math and writing;
- And... if we focus intervention instruction (in reading) on high-leverage skills appropriate to each grade level;
- And... if we use agreed-upon engagement strategies across instruction –
- Then we will see increased participation of our 19 Target Students – during intervention and during classroom instruction;
- Then we will see improved performance on classroom assignments by our Target Students;
- Then we will see improved year-end performance on the CST by our Target Students;
- And then all schoolwide proficiency rates will improve.
