

# How to Design, Structure, and Implement SLOP Model Programs: Focus on Current Research

**Thomas A. Bauder, Research Associate**

**tbauder@cal.org**

**Center for Applied Linguistics, Washington, DC**

**www.cal.org**

**OELA Summit**  
**Thursday, December 1, 2005**

**Celebrate Our Rising Stars Summit IV**  
*"From Essential Elements to Effective Practice"*

# WARM UP

## Stand Up if You:

- have attended a SIOP Model workshop.
- have worked with teachers implementing the SIOP Model.
- have provided SIOP Model professional development in your school, district, or state.
- know a lot about the SIOP Model.
- know a bit about the SIOP Model.
- know just a little, but want to know more.

# Content Objectives

Participants will

- Identify key segments of a current CAL SIOP Model research project.
- Analyze the Strategies Component of the SIOP Model.
- Practice one effective learning strategy.

# Language Objectives

- Summarize a video segment illustrating the Strategies Component of the SIOP Model.
- Discuss advantages and challenges of carrying out educational research.
- Discuss reasons to help ELLs develop learning strategies.

# THE SIOP Model

SIOP =

Sheltered Instruction Observation Protocol

Explain, please.

Let's start with the term, Sheltered Instruction.

## Definition of Sheltered Instruction

A means for making grade-level **academic content** (e.g., science, social studies, math) more **accessible** for ELLs while at the same time promoting their **English language development**.

- Clear objectives
- Scaffolding of instruction
- Connections to previous learning
- On-going review and assessment together with regular feedback

# The SIOP Model:

**Sheltered Instruction for Academic Achievement  
(Making Content Comprehensible for English Learners  
by Echevarria, Vogt, & Short, 2004)**

- Preparation
- Building Background
- Comprehensible Input
- Strategies
- Interaction
- Practice & Application
- Lesson Delivery
- Review & Assessment

# Sheltered Instruction Observation Protocol (SIOP)

- Tool for teacher observation
- Rubric (5 point scale) to measure teaching practice on 30 features of sheltered instruction, as developed by teachers and researchers
- Modified to be a lesson plan checklist

## So, Does it Work?

The Effects of Sheltered Instruction on the Achievement  
of LEP Students  
[www.cal.org/siop](http://www.cal.org/siop)

CREDE (Center for Research on Education,  
Diversity & Excellence)

- 7-year research study (1996-2003), funded by the U.S. Dept. of Education
- Teacher-researcher collaboration for SIOP model development
- Field-testing of professional development model

# SIOP Program Models

- Sheltered content classes
- All K-12 classes
- ESL support classes
- Bilingual classes
- Selected teams within schools
- Selected teachers—those with the most ESL students

# A Current SIOP Research Project

- Public School District in Northern New Jersey  
2004-2006

# CAL

## SI OP Research Project Overview

- Ongoing, collaborative professional development aimed at helping ELLs succeed in academic subjects
- 2-year research study to examine effects of SIOP Model implementation on student achievement
- Long-term commitment by the school district

## CAL SI OP Project

- **Collaborators:**  
NJ School Dist.  
&  
Center for Applied  
Linguistics
- **Funders:**  
The Carnegie  
Corporation of  
New York  
&  
The Rockefeller  
Foundation

# CAL SI OP Research Project Activities

- Summer institute and follow-up workshops on SIOP instructional practices
- School teams of SIOP teachers and coaches—60 teachers, 5 coaches
- Classroom visits to support and measure implementation
- Ongoing support via coaching, listserv and Web site articles and chats.
- Collection and analysis of student data
- Video taping. Peer critique.

# Goals of the CAL SI OP Research Project

- Sustained, collaborative professional development for teachers of English language learners
- Implementation of the SIOP Model in teachers' classrooms
- High levels of academic achievement and success for English language learners in middle and high school

# Research Questions for the CAL/Clifton SIOP Project

- Do students improve their academic performance after 1 or 2 years of SIOP instruction?
- Are teachers able to implement the SIOP Model to a high degree after 1 or 2 years?
- Does the degree of implementation affect student performance?

# Challenges

- Time
  - for teachers to plan and meet together
  - for teachers to develop needed materials
- Distance
  - CAL staff to get to NJ
- Mobility of students and teachers
- Dueling innovations—priorities at schools

## Reasons to Conduct the Research Anyway

- Confirmation and replicability of existing research. More data makes our case stronger.
- Subtle, but clear evidence of teacher collaboration.
- Gradual changes in school culture.
- Competent teachers given opportunities to share their creativity and skill with colleagues in local workshops, state conferences, and national conventions.
- School system gets useful student data which it can use to adjust programs.

# Focus on One SIOP Model Component

## Strategies

The features  
of the SIOP  
Model  
Strategies  
Component.

# Strategies

Ample  
opportunities  
to use  
strategies

Use of  
scaffolding  
techniques

Use of  
a variety of  
question  
types.

# Strategies Video Activity

## Predict-List-GIST-Compare

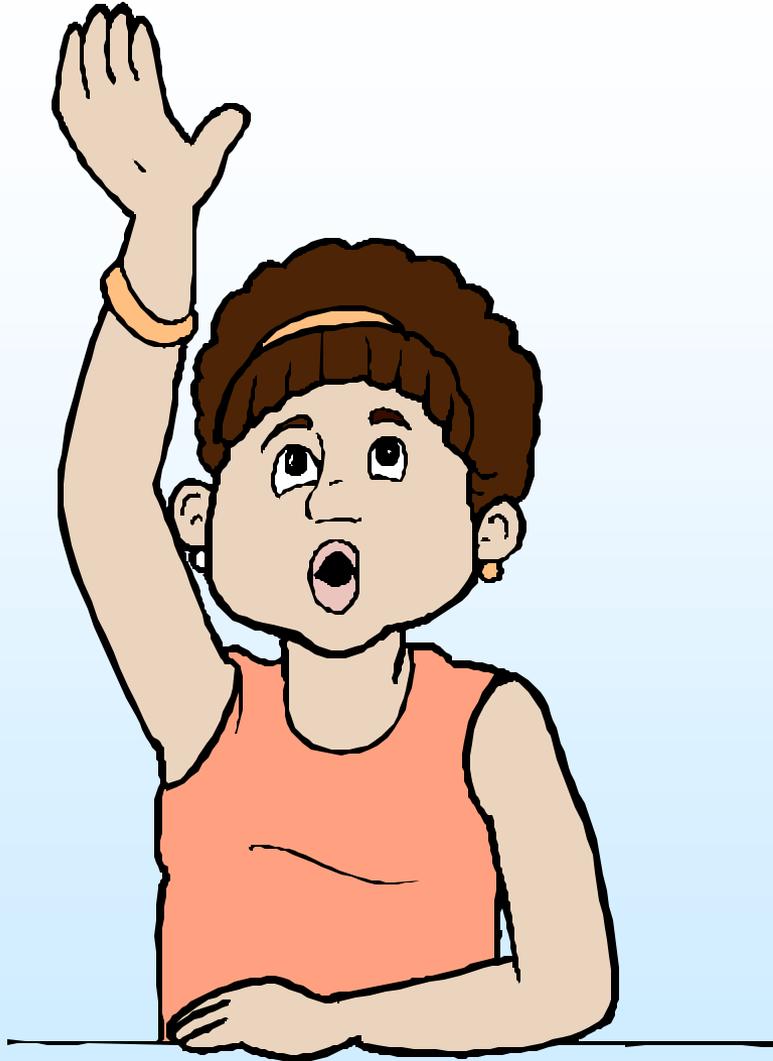

1. Predict. You are about to watch Randy Gibson's 7<sup>th</sup> Grade Social Studies class about the accomplishments of the Sumarians.
  - \* Write a prediction of two or three strategies she could use.
  - \* Share your predictions with a partner
2. List. While watching the video, list 10 words summarizing or describing the strategies Randy uses.
3. GIST. Use your list to write a brief paragraph summarizing the strategies used.
4. Compare your predictions and your summary. What conclusions can you draw?

“By conscientiously sheltering instruction through strategy teaching and modeling, by appropriately scaffolding support, and by thoughtfully asking questions that require students to interpret, apply, and synthesize, we increase the chances English learners become critical

-Echevarria, Vogt, & Short, 2004, p. 97

# What are Learning Strategies?

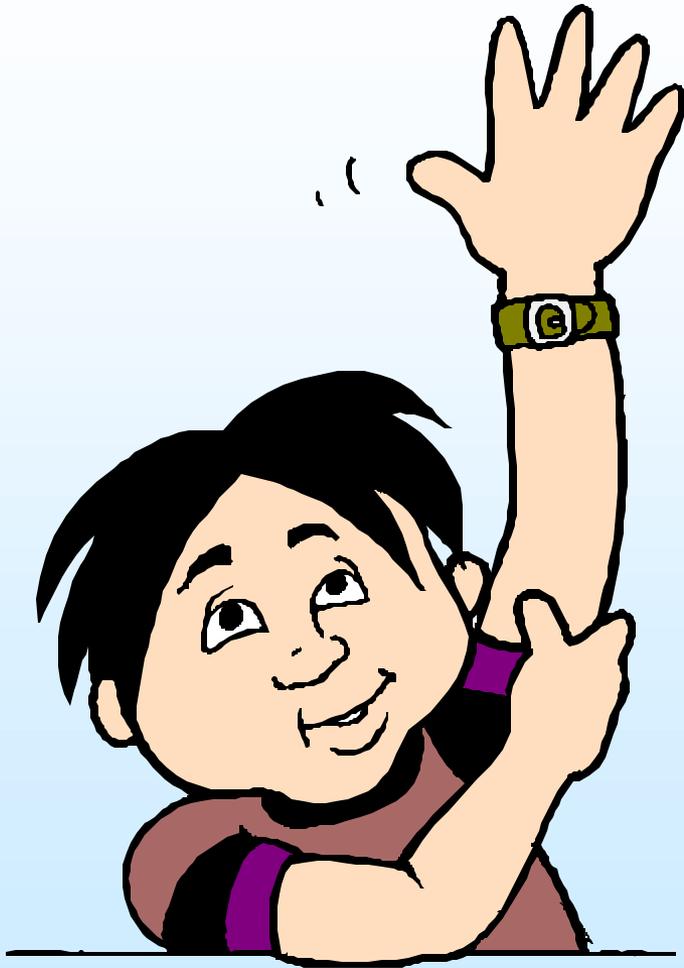

**Celebrate Our Rising Stars Summit IV**  
*“From Essential Elements to Effective Practice”*

# Why are Strategies Important?

**Celebrate Our Rising Stars Summit IV**  
*“From Essential Elements to Effective Practice”*

**What are some  
strategies that are  
effective for  
English language  
learners?**

*“From Essential Elements to Effective Practice”*

# **SQP2RS: An Effective Reading Strategy**

(Echevarria, Vogt & Short, 2004 pp. 84, 92-93)

SQP2RS is a multi-step strategy which helps students master several important expository reading skills:

1. Survey
2. Question
3. Predict
4. Read
5. Respond
6. Summarize

Let's try it.

# SQP2RS

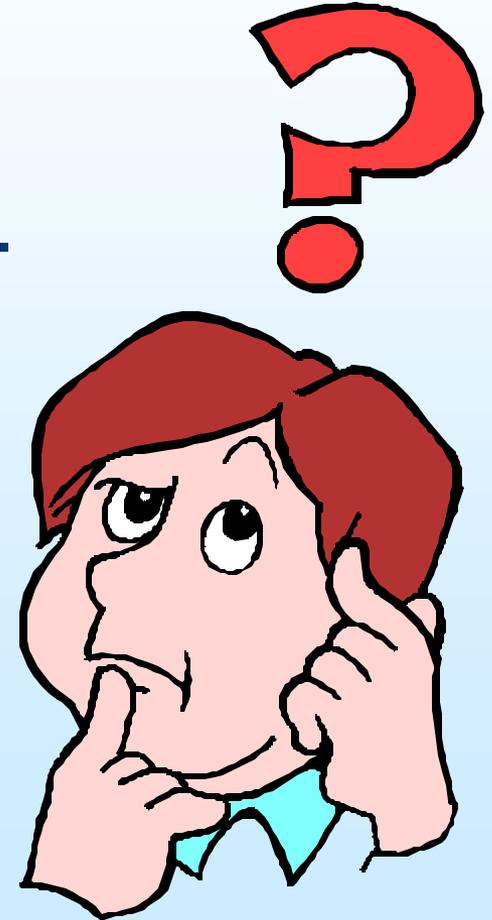

## Step 1: Survey

- Quickly skim the text (about 2 minutes) to find the main ideas.

## SQP2RS Step 2: Question

- Write 1-3 questions that you think this text will answer.
- Write your questions on your handout.

## SQP2RS Step 3: Predict

- Write 1 or 2 interesting things you think you will learn by reading this text.
- Use your questions to help you decide.
- Write your questions on your handout.

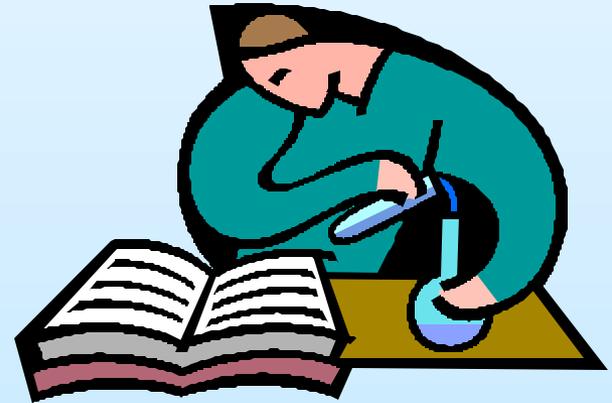

**Celebrate Our Rising Stars Summit IV**  
*“From Essential Elements to Effective Practice”*

## SQP2RS Step 4: Read

- Read the text.
- Look for answers to your questions.
- Decide if your predictions were correct.
- Write the results on your handout.

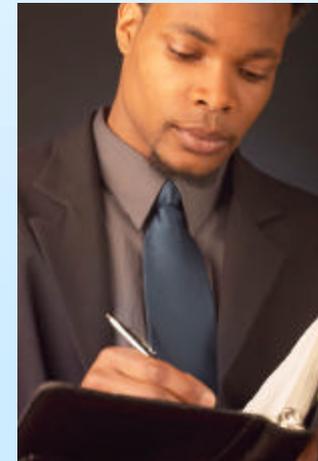

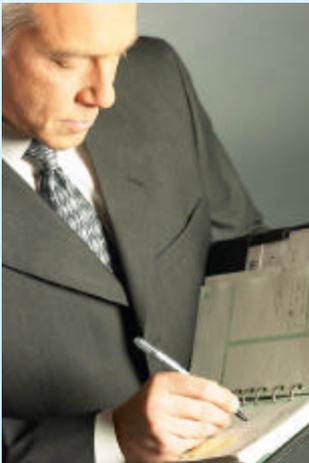

**Celebrate Our Rising Stars Summit IV**  
*“From Essential Elements to Effective Practice”*

## SQP2RS Step 5: Respond

- Write answers to your questions, OR write new questions so you can answer them.
- Write your answers on your handout.

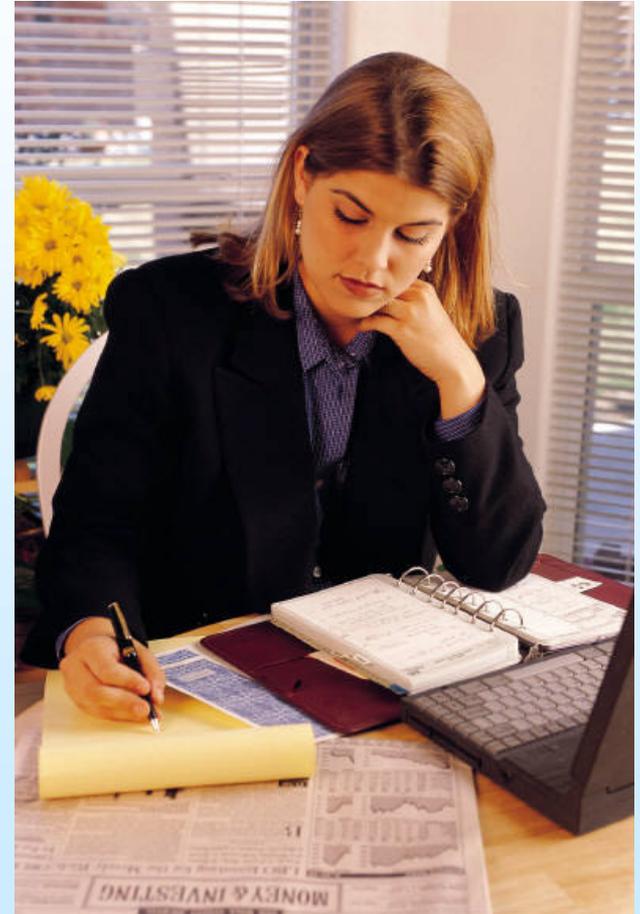

**Celebrate Our Rising Stars Summit IV**  
*“From Essential Elements to Effective Practice”*

## SQP2RS Step 6: Summarize

Write on your handout  
3 of the most  
important ideas from  
the reading.

**Celebrate Our Rising Stars Summit IV**  
*“From Essential Elements to Effective Practice”*

# Conclusions

## Think-Write-Pair-Share

- How was this different from your typical reading experience?
- How can this strategy help English language learners be successful in our schools?

**Let's review today's objectives to see if we did what we wanted to.**

**Celebrate Our Rising Stars Summit IV**  
*"From Essential Elements to Effective Practice"*

# Content Objectives

Participants will

- Identify key segments of a current CAL SIOP Model research project.
- Analyze the Strategies Component of the SIOP Model.
- Practice one effective learning strategy.

# Language Objectives

- Discuss advantages and challenges of carrying out educational research.
- Summarize a video segment illustrating the Strategies Component of the SIOP Model.
- Discuss reasons to help ELLs develop learning strategies.

# Thank You

- Please use the contact sheet if you have questions or inquiries.
- Check out our Web site:  
**[www.cal.org/siop](http://www.cal.org/siop)**
- Best wishes to all. Enjoy the rest of the Summit.

*Obrigado!*
