

The Lexile Framework[®] for Reading

Lexiles in the Classroom: III. Growing Smarter as Readers and Teachers: How Teachers (and Students) Use Lexile Resources and Reading Strategies to “Work Smarter”

Presented by: Rick Dills, Ed.D
Retired Gresham-Barlow Director of Student Achievement
Facilitator, MetaMetrics, Inc.
Consultant, Educational Design & Development

© 2006 MetaMetrics, Inc. | www.Lexile.com

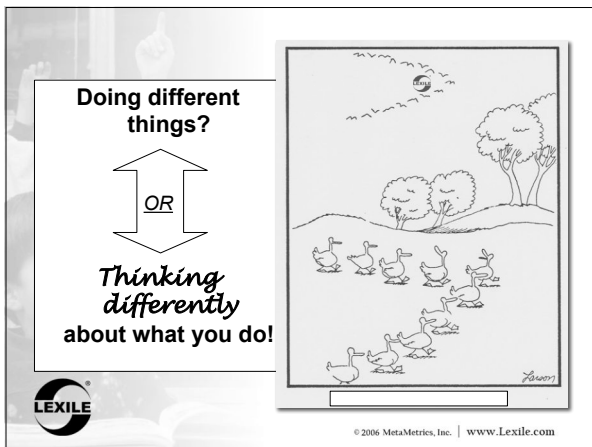

How do schools, teachers and students use Lexile resources to improve reading and instruction?

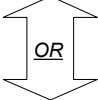

- Lexiles support classroom “profiling” and “text matching.”
- Lexile online resources help teachers and students find “accessible text.”
- Teachers can differentiate content by building Lexiled tiered resource lists.
- Students are empowered when they practice reading strategies with text at their Lexile level.

Using Lexile Resources to Support and Differentiate Instruction

Big Idea:
Lexiles help teachers respond to students' needs by...
Matching Readiness and Content

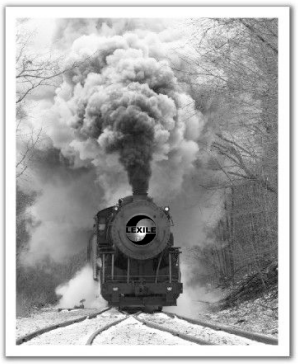

The Lexile logo is in the bottom left, and the copyright notice "© 2006 MetaMetrics, Inc. | www.Lexile.com" is in the bottom right.

The future is already upon us...

Lexile-based resources such as...

Achieve 3000
KidBiz
TeenBiz

© 2006 MetaMetrics, Inc. | www.Lexile.com

Scholastic Read 180

90-Minute Instructional Model
 Small-Group Rotation w/

- Intervention based on Lexile theory
- Matches texts to readers based on Lexiles and interests
- Uses multi-media to build interest and background
- Instructional model translates to regular classroom

Making a Difference Now...
Without Spending a Dime

- How are teachers using Lexiles to measure and foster their students' authentic growth as readers?

© 2006 MetaMetrics, Inc. | www.Lexile.com

Lexiles And Differentiation Finding Appropriate (Matched) Text

- **Matching Text:** How can I supplement my teaching materials to reach more of my students at their Lexile level?
 - **Develop tiered book lists:** Use the Lexile Book Database, your school/community library, and on-line resources to find relevant books at varied Lexile levels.
 - **Develop tiered resource lists:** Use online resources and the Lexile Analyzer to find supplementary materials to address topics or themes you are teaching.
 - **Empower students and families** to use Lexile resources to find materials that match their Lexile levels and interests.

Lexiling Your Library

- Web site—www.Lexile.com (<http://educators.lexile.com>)
 - Free
 - Continuously updated
- Library Software Services
 - Follett Software Company's Find-a-Book Service
 - Update MARC Record Tag 521
 - Similar services also available through Alexandria and Sagebrush

© 2006 MetaMetrics, Inc. | www.Lexile.com

Use the Lexile Book Database to:

- Determine the Lexile measure of a book (using title, author, or ISBN#)
- Find books related to a topic or theme in a targeted Lexile range through a Keyword Search

Title or Author Search

Title:

Author:

Sort By:

Results per page:

OR

Lexile Range or Keyword Search

Lexile Range: Min Max

Keyword:

Sort By:

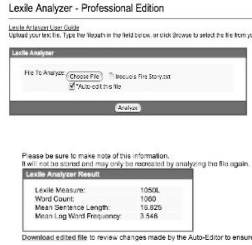

Results per page:

© 2006 MetaMetrics, Inc. | www.Lexile.com

Use the Lexile Analyzer to:

- Determine the readability level of:
 - Documents saved as text (.txt) files
 - Teacher-prepared materials
 - Scanned documents (translated to text with optical character recognition - OCR - software)
 - Text copied from the Internet

Lexile Analyzer - Professional Edition

Lexile Analyzer User Guide
Upload your text file. Use the Upload in the field below, or click Browse to select the file from your computer.

Lexile Analyzer

File to Analyze:

Please be sure to make note of this information. Results are generated only as requested by analyzing the file again.

Lexile Analyzer Results

Lexile Measure:	1050L
Word Count:	1920
Mean Sentence Length:	16.920
Mean Log Word Frequency:	3.548

Use Internet databases (EBSCO, Proquest) to:

- Find on-line periodical articles and instructional resources by Lexile measure
- Build tiered supplemental reading lists on content topics (to support differentiated instruction)
- Support student web-quest activities

© 2006 MetaMetrics, Inc. | www.Lexile.com

Activity

Using Lexile Tools to Build a Tiered Reading/Resource List

1. Identify a theme or topic.
2. Review the text range targets from your classroom profile.
3. Use Internet search engines to find interesting, relevant text that matches your text range targets:
 - Lexile Book Database
 - Lexiled Resource Databases (EBSCO, ProQuest)
 - Teacher Search Tools (NetTrekker)
 - Google (or other search engines)
4. Use the Lexile Analyzer to measure the level of any text not already Lexiled.
5. Build a student web quest worksheet.

Making a Difference with Lexiles Appropriate Text: A Tiered Reading List

- **Class:** 9th grade Integrated Science
- **Lexile range:** 700-1320+
- **Topic:** Stem Cell Research
- **Teacher Resources:** EBSCO, Google, Lexile Analyzer
- **Activities:** Web Quest, article jigsaw, concept mapping (graphic organizer)

© 2006 MetaMetrics, Inc. | www.Lexile.com

Making a Difference with Lexiles Appropriate Text: A Tiered Reading List *(continued....)*

Lexile	Lexile	Lexile	Lexile	Lexile
700	750	800	850	900
950	1000	1050	1100	1150
1200	1250	1300	1320	

© 2006 MetaMetrics, Inc. | www.Lexile.com

Activity

Building a Webquest Worksheet

Number	Webquest Item	Notes

- Use the Internet to find resources at targeted Lexile levels.
- Record resource information in the worksheet.
- Build in links to resource web sites.
- Sort by Lexile levels?
- Email worksheet to students.

© 2006 MetaMetrics, Inc. | www.Lexile.com

Lexiles And Differentiation

Grouping

- **Grouping:** How can I organize learning (grouping) based on what I know about my materials, students, and their readiness?
 - **Ability groups:** Use Lexile and pre-test information to put students in ability-based groups some of the time.
 - **Interest groups:** Jigsaw (reorganize) students in cross-Lexile heterogeneous groups some of the time.
 - **Experts:** Organize students and materials so that all students are "experts" in some area, and the entire group/class depends on their expertise.

Differentiating Instruction Using Lexile Measures and OSLIS

Developing Targets for Student Success

Module I

ODE Standards-based Examples

- Available at: www.ode.state.or.us

<http://www.ode.state.or.us/teach/learn/subjects/reading/lexile/lexilestandbasedlesson.aspx>

Lexile Measure	Standard	Example
100-120	Reading Comprehension	Understanding the main idea and supporting details.
120-140	Reading Comprehension	Understanding the main idea and supporting details.
140-160	Reading Comprehension	Understanding the main idea and supporting details.
160-180	Reading Comprehension	Understanding the main idea and supporting details.
180-200	Reading Comprehension	Understanding the main idea and supporting details.
200-220	Reading Comprehension	Understanding the main idea and supporting details.
220-240	Reading Comprehension	Understanding the main idea and supporting details.
240-260	Reading Comprehension	Understanding the main idea and supporting details.
260-280	Reading Comprehension	Understanding the main idea and supporting details.
280-300	Reading Comprehension	Understanding the main idea and supporting details.

Lexiles And Differentiation

Measuring and Celebrating Growth

- **Assessment:** How can I measure improvement in students' reading levels?
 - Use classroom-level assessments (e.g., SRI) - along with state/district tests - to measure Lexile growth over time.
- **Charting Progress:** How can I represent and communicate improvement?
 - Develop a classroom **Lexile Reading Growth Chart** or **Lexile Map** to communicate where students are and how they are progressing.
- **Empowerment:** How can I involve students and families as partners?
 - Use **Lexile.com** resources to empower students/families.

Michelle - 7th Grade Reading/LA

- **Profiled all 7th grade reading classes** for Lexile text matching - provided **scores to students**
- Taught students (and parents) about Lexiles and **lexile.com resources**
- Tracked **reading growth** with Lexile scores
- **Organized curriculum** (Lit anthology), independent reading logs, and research assignments around Lexiles
- Taught **reading strategies** in relation to matched text
- Sent home **newsletters and end-of-year growth summaries** focused on Lexiles

60% of students **exceeded** standards; average growth of 160L!

© 2006 MetaMetrics, Inc. | www.Lexile.com

Debbie - High School Health

- **Existing Context:** A problem-based environmental health unit for 9th grade students
 - Given a problem (e.g., asbestos, nuclear testing) and a community (e.g., a Canadian mountain town, a Marshall Island village)
 - Research the environmental health problem
 - Develop a community site map
 - Produce a paper and group media presentation
- **NEW:** Organized materials/topics by Lexile level and students by Lexile scores (to facilitate text matching)
- **NEW:** Assigned students to find additional resources on their topic **at their Lexile level** (using EBSCO)

All students successfully completed the project (a first)!

© 2006 MetaMetrics, Inc. | www.Lexile.com

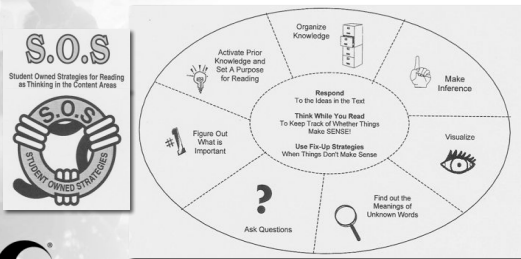

Students are empowered when they know...

- What Lexiles are and how they **measure reader ability and text readability**
- How **“tall”** (their Lexile levels from tests) and **“strong”** (the lexile levels of books they’ve read) **they are as readers**
- Why reading **matched text** can help them grow as readers, and how to chart and **track reading growth**
- How to use **Lexile.com resources** and **Internet search tools** such as EBSCO
- How and when to use good **reading process and strategic reading skills** (e.g., *Mosaic of Thought* [Keene, 1997] or S.O.S. [Munroe, 2003]) to increase comprehension

Activity

Empowering Your Students and Their Parents

- How might you help your students (parents?) understand Lexiles?
- How might you share Lexile scores and growth information with your students and their parents?
- How might you teach students and parents to use Lexile resources?
- How might empowering students change the way you structure your assignments?

© 2006 MetaMetrics, Inc. | www.Lexile.com

Activity

An Empowering Assignment

- Develop a plan for sharing Lexile scores with students and teaching them how to use Lexile resources.
- Identify a topic/theme you will be teaching.
- Assign students to find ___ additional resources on the topic *at their Lexile level*. Invite parents to participate.
- Design a jigsaw activity so that students will share what they have found and learned.
